**ROLLING V BUS CORPORATION MAKING MASSIVE
INVESTMENT IN COMMUNITY**

Rolling V focuses on the post-covid environment.

MAY 9, 2022 - Liberty, N.Y. – Rolling V Bus Corporation has announced a new and improved wage scale centered around advancement and opportunity.

Rolling V has unveiled a new plan that will allow starting drivers to earn a rate as high as \$20/hour starting while monitors new starting rate jumps to \$15/hour. New recruits and current non-driving staff are also offered a 2-month program to earn their CDL and new starting rate of pay. Additionally, all current driving and monitor staff will see a comparable rate increase for the next school year.

“Rolling V has always, and continues to appreciate our staff,” said Executive Vice President Nicholas Vallone, who also serves as President of the New York School Bus Contractors Association (NYSBCA). “A 5% raise during times of 7% inflation is a pay cut, that’s why Rolling V’s plan increases wages nearly 16% from last to next September.”

Beyond wages, Rolling V has also purchased over 35 new vehicles for service in September. These new vehicles will be equipped with updated technology including Cameras and a GPS system that can allow parents access to their child’s bus location in real time.

Lastly, Rolling V has insourced all elements of the CDL training process in their Liberty headquarters.

These additions include a brand-new medical office for physicals and drug testing as well as identity services including fingerprinting and background checks.

In total the investments at Rolling V come in at a staggering 3.7 million dollars. Vallone is confident that these dollars will help Rolling V re-build its strong foundation which was rattled by the Covid-19 pandemic.

“It’s time to look to the future and continue to build on our commitment to the communities we serve. Vallone said. “These steps are necessary not only to attract new employees to a career at Rolling V, but to show our appreciation to our loyal crew that helped get us through these tough times”
